ABOUT EPSI

THE EUROPEAN PLATFORM FOR SPORT INNOVATION

EPSI is an international non-profit organization based in Brussels representing a network of sport-related private and public members from all over Europe, fostering innovation in sports through **fundraising, business creation** and **lobbying**.

With a network of more than 160 members of all types, EPSI represents, directly and indirectly, more than **2.000 entities** and around **5.000.000 end users in Europe**. It focuses on innovation in the areas of sport, physical activity, healthy lifestyle, vitality, transport, environment, digitalization, space and all related impacted sectors.

EPSI strives for **stimulating sport businesses** thanks to tailored plans and **developing new projects** through public and private funding calls.

OUR PHILOSOPHY

MISSION

EPSI's mission is to strive for **innovation-friendly conditions** for the EU sports ecosystem and its neighbouring sectors, articulate and co-ordinate programmes of research and innovation, help its members to develop technological and other forms of **innovation**.

We combine **top-down** and **bottom-up approaches** to secure the required financial support, create and scale up sports businesses across the entire innovation spectrum and thus contribute to the general growth of the European economy.

VISION

LEADING SPORT INNOVATION
FOR GREATER SOCIETAL AND
ECONOMIC IMPACT

[VISIT THE WEBSITE](#)

UNIQUE VALUE PROPOSITION

EPSI facilitates comprehensive inter-geographical (local/regional/national/European) and **interdisciplinary collaboration** across sport, health, tourism, education, space and all the other related sectors to **drive innovative project and business development**, promoting top-down and bottom-up approaches. Through our **result-oriented activities**, we target the entire value chain, addressing all technology (TRL) and service (SRL) readiness levels to ensure **impactful and sustainable outcomes**.

A large, solid purple circle is positioned on the left side of the page, partially overlapping the text area.
